ALNORAS INTEGRATED SOLUTIONS CO. LTD

Company Profile

1. INTRODUCTION

ALNORAS INTEGRATED SOLUTIONS CO.LTD is an independent business that created to ensure the equitable growth of Sudanese business's construction and contracting. ALNORAS offers a complete package for land development projects including:

- Feasibility studies
- Planning and consents
- Engineering
- Construction
- Surveying

ALNORAS has been duly registered pursuant to and in accordance with the provision of the Registration of business Names Ordinance, 1931 and the Regulation there under. It was established as an independent company on 2010. It has a group of highly skilled engineers and employees with years of on hand experience for the sole purpose of forming a small and highly skilled Civil and Mechanical Construction business specializing in construction projects (water, buildings, infrastructure, rail networks and dams).

In addition, **ALNORAS** works in a wide spectrum on engineering consultancy and implementation of the engineering and transport projects.

We are always available with the necessary skills, knowledge and equipment to meet any requirement in the field of general construction, civil construction, mechanical construction and electrical engineering.

Safe working conditions are a very high priority to us not only for our employees, but also for our customers. This not only enables us to deliver a dynamic and professional service to our customers, but also gives the client the assurance that their interest is served by members and staff personally to complete projects on time and to the required quality standards.

ALNORAS was formed by businessmen who have a combined experience in general construction, civil construction, mechanical construction, electrical engineering and consulting services. While our years of experience and expertise as building contractors mean we can tackle even the largest contracts with complete confidence, we are also equally adept at handling the

smallest jobs. Nevertheless, no matter how big or small the project, our customers are rest assured that it will be completed on time, within their budget and to the satisfaction of even the most exacting clients

2. VISION

ALNORAS works with all stakeholders to support the development and promotion of the Sudanese construction industry that represents our nation's aspirations and celebrates our creativity, entrepreneurship, equitable redress and association. To be sophisticated a distinctive competence in achieving the goals and hopes of customers. Active leaders committed to quality and excellence through service to business. We endeavor at all times to provide a comprehensive service to our clients. We strive to complete projects and within budget. We promote strict adherence to quality, health and safety standards and we adhere to labor equity and encourage harmonious personnel relationships in order to promote team work among staff. Specialist expertise will be applied in relevant areas to ensure that standards and values are achieved. To become a significant construction services business via partnership with significant industry players

3. MISSION

- We collaborate with stakeholders in supporting the development and promotion of a thriving Sudanese construction company.
- To build a partnership and good relation with the Institutions, Organizations, Societies, Schools, Municipalities, Communities and Individuals in the field of construction.
- To deal with the Procurement, Logistic and Supply Services in order to achieve the accomplishments and performance upgrade.
- We endeavor at all times to provide a comprehensive service to our clients. We strive to complete projects and within budget.
- We promote strict adherence to quality, health and safety standards and we adhere to labor equity and encourage harmonious personnel relationships in order to promote team work among staff. Specialist expertise will be applied in relevant areas to ensure that standards and values are achieved.

ALNORAS INTEGRATED SOLUTIONS CO. LTD

LAYOUT OF EQUIPMENT

10. LAYOUT OF EQUIPMENT

- Appropriate tools and equipment are essential for the effective operation of any civil works site.
- Equipping the construction site with the correct tools and equipment plays an essential role in achieving timely and good quality results.
- For every construction activity there is an optimal combination of tools and equipment.
- According to the nature and content of the works, the technical staff needs to know which tools to use and how to effectively combine them with manual labor.
- Once on site, equipment requires trained operators and supervisory staff who are proficient in its operation and maintenance.
- Equipment is maintained in a good condition and is readily available when required for the various work activities.
- In order to increase job-site productivity, it is beneficial to select equipment with proper characteristics and a size most suitable for the work conditions at a construction site.

شركة النورس للحلول المتكاملة للمحاجة
ALNORAS INTEGRATED SOLUTIONS CO. LTD

8.2 Civil Engineering

We specialize in road and rail networks and water related Civil Construction. To this end, the business is able to employ its vast experience for rural or urban community water supply. We are well experienced in the construction of various dimensions and pipes. We are able to do any general maintenance on pipelines like the changing and repair as well as pressure testing of various types of valves, installation and changing of flow meters, air valves, etc.
