ALNORAS INTEGRATED SOLUTIONS CO. LTD

Company Profile

Company Profile

Welcome

Welcome to **Tkmeel for Contarcting**. We specialize in supply, purchase and deliver Non-Food Items (NFI) and Transportation Services. We take pride in our customer service. We transport everyday by the cheapest methods to get your product delivered quickly.

on Food Items (NFI) are any non food article, tool, utensil which contributes to the physical and or psychological health of population affected by a significant deterioration in their environment which threatens their survival.

NFI could cover several needs: hygiene, cooking, personal care, warming, shelter, health, education etc... Normally they are material, objects and tools already present on the market some time, but not corresponding, of not adapted exactly to what MSF (relief actors in general) look for in term of quality (appropriate in the context, economical, available on the local, regional, international market, eco-friendly...)

ergonomic design (easy to use, easy to carry, appropriate for gender, age, people with reduced mobility etc...)

multi-functional, re-usable, easy to adapt, sustainable

Our helpful staffs are here to help you with your request and to answer any questions you may have.

INTRODUCTION

ALNORAS was established as an independent business in 2010. It started on fifteenth of April 2016 as a transport services enterprises company which has focused on emphasizing the positive experiences of ownership and transport and services quality. However, it is a Sudanese private business which has been working in the field of transport, logistic, procurement, supply, purchasing and clearance customers' services.

ALNORAS is a large-scale leader in trusted transportation solutions. As a multi-service provider, we offer a full range of services as well as multi-modal specific services, primary and secondary transport. As a successful provider, we *help* our customers manage a critical part of their supply chain by providing visibility and integration across multiple enterprises. Through our high tech track and trace systems, we keep a close eye on cargo and when it comes to cross-border transportation, our universal footprint gives customers the edge. In addition, we are dedicated contract transportation and operate national and international truckloads and less-than-truckloads via road, rail or intermodal transportation.

VISION

To be a leading a superiority business focused on the developmental needs of its communities and epitomizing excellence transportation services. To achieve the safe, secure and sustainable transport systems embodies market principle, balance economic, environmental and social needs and are responsive to the needs of business and the individual. To achieve this vision, the business will transport well-structured public and private sector projects, working with domestic and international companies, offering a diverse range of transportation services to meet the transport needs of its clients.

MISSION

Build a partnership and good relation with the Institutions, Organizations, Societies, Communities and Individuals in the field of Transport.

Provide Procurement, Logistic and Supply Services in order to achieve the accomplishments through advanced performance.

OBJECTIVES

Provide transportation services locally, regionally and internationally. Contribute to in finding solutions of transportation and supply services. Providing the latest means of transport and services meets the desires and needs of customers. Excellence, professionalism and truthfulness.
